Child Protection Policy

The Hellenic American Academy recognizes that the classroom teacher is the first stage in the pastoral care of the child in the school. Teachers are well placed to observe outward signs of abuse, changes in behavior or failure to develop or thrive. Categories for concern are:

Neglect - The persistent or severe neglect of a child that results in serious impairment of the child's health or developments.

Physical Abuse - Physical injury to a child, reasonable suspicion that the injury was inflicted or knowingly not prevented.

Sexual Abuse -The involvement in sexual activities to which the child was unable to give informed consent.

Emotional Abuse - Persistent or severe emotional ill treatment or rejection.

Grave Concern - Children whose situations do not currently fit the above categories but for whom there is significant risk of abuse are of prime concern to faculty and administration. If a teacher becomes aware of abuse s/he will notify the Principal of the school immediately. The Principal will investigate so far as is possible and involve the relevant agencies (parents, foster-parents, social services, police, etc.) Dependent upon the investigation, the Principal shall ensure that a case conference is arranged involving the above agencies. The outcome of this will depend upon the individual case but it could result in the child's name being entered onto the child protection register. The Principal will keep the class teacher informed with developments. Every attempt will be made to offer support for the child while at school and it is hoped that the school will provide an environment in which s/he can relax and spend the school day in complete confidence and safety.

Complaints Procedure Policy

If classroom related, the first step is to speak with the teacher via an appointment after school, made through the office. Please note: ANY complaints MUST be made within a "reasonable" amount of time.

Formal

Should any concerns arise regarding your child's education at the Hellenic American Academy **the proper protocol** is as follows:

1. If not classroom related, discussion with appropriate party that is, teacher, principal via written letter, phone call, or appointment.
2. Should results be unsatisfactory, the next step is a formal written request to the principal for a meeting with the principal. The written request must state the issues of concern.
3. If there are any doubts about where to direct the complaint a letter should be written to the Principal, who will then make the necessary arrangements or advise what steps to take. Complaints about the actions of individual teachers should, in the first instance, be taken up with the Principal.

We trust that your children are happy at this school however, over a period of time an odd problem may arise. The following procedures dealing with complaints of any kind must be followed:

1. The matter should be broached with the classroom teacher.
2. If a satisfactory conclusion is not achieved then an appointment should be made with the Principal through the school office.

Should the parent feel further dialogue is necessary the parent shall write a letter to the Director/Head of School detailing the issue of concern.

Communication

A response to the complaint will be forwarded within a reasonable amount of time.

Curriculum K-8

Hellenic American Academy curriculum is in accordance with the Massachusetts Curriculum Frameworks/Common Core standards as presented by the DESE (Department of elementary and secondary education). Curriculum information is available on their website at: www.doe.mass.edu. Hellenic American Academy also incorporates the teaching of the Greek language on a developmentally appropriate level

Progress Reports - Progress Reports will be issued 3 times a year at mid-point of the marking period.

Report Cards - Report cards will be issued 3 times a year for grades 1-8. Periodic evaluations for Pre-K and K students will also be issued. Specifics dates and forms will be made available to parents.

Teacher/Parent Conference - Following the first marking period in December, formal parent-teacher conferences will be held at a scheduled time. Parents will have an opportunity to discuss issues such as academic progress, homework, and grades.

Greek Department

Reading - Will be an outgrowth of conversation where the students will have the opportunity to increase their skills in the Greek Language.

Language - The greater the progress the more proficient the student becomes in a language. At this stage the student will have a spoken vocabulary, a written vocabulary, and reading abilities. Conversational ability will be our first priority.

History - The knowledge of ancient cultures, especially one as rich as the Greeks, opens before us through history and geography awareness of how the past impacts the future. The classical languages, as proven through SAT scores, will enhance the students' knowledge of English Language Arts/Math & Science and Social Studies.

Religion guides the students through a course of study that blends the teaching of religious stories, explanation, and observance of religious days, and classroom work in the Church into a satisfying religious experience. Religious class

- Increases potential for communication between home and school,
- provides increased opportunities for enrichment activities,
- correlates school learning and outside interests and
- develops within each student the responsibility for completing and returning homework assignments.

Collective Worship Policy - An Act of Collective Worship will take place every day. The time at which this takes place and the form of the Collective Worship (whole school, team or class groupings) may vary from day to day. The majority of the Acts of Collective Worship will be mainly of a broadly Orthodox Christian character.

Every child will take part in the Act of Collective Worship unless withdrawn by his/her parents/guardians and the school is notified ahead of time. Religious classes are mandatory for all students.

- Continuous harassment to teachers or students
- Possession of weapons
- Continuous bullying of other students

The principal, in consultation with teachers, reserves the right to change a disciplinary measure if circumstances allow.

Steps in Expulsion

Expulsion from school is always serious business. The process is usually governed by carefully prescribed legal requirements. The principal should always check with legal counsel before initiating the process of expulsion.

The following model step-by-step expulsion procedure is typical of the process required in many states: The Hellenic American Academy reserves the following rights:

1. Principal initiates a certified letter to parents stipulating the cause/reason(s) for expulsion, and the expulsion and hearing procedure that will be followed. A return receipt should be requested.
2. A waiver of hearing form and copies of all applicable policies and state rules and statutes should be included with the parent letter.
3. Copies of all correspondence and enclosures should be filed with the Academy Administration, Principal, and with legal counsel.
4. If the student and parents sign the waiver of hearing form, the Principal should notify the Administration/Head of school so a meeting can be scheduled as soon as possible.

Detention Policy

Detention will be assigned at the discretion of the Principal or teachers. Parents will be notified via telephone or written notification at least one day in advance and will also be advised as to the length and location where the detention will be served.

Steps in Progressive Discipline for Students

Every individual classroom discipline plan should provide progressive consequences for persistent or escalating infractions. A typical sequence of progressive disciplinary actions could include the following steps:

1. Verbal reminder.
2. Classroom consequence
3. Removal from class (Principal referral)
4. Detention
5. In-school suspension
6. Out-of-school suspension
7. All consequences of inappropriate behavior are usually determined on an individual basis unless the class or a group has participated in the inappropriate behavior. Consequences for a group or class will follow the above model.

Due Process Guidelines

Protecting democratic standards and individual rights is basic in effective discipline in schools. All principals must be champions of due process for every student. Due process means guaranteeing certain procedural safeguards for everyone. The essentials of due process for students include the following:

- Reasonable rules
- Proper notification and explanation of all rules, regulations, and policies
- Awareness of specific allegations or charges
- Right to counsel
- A full and complete objective investigation

- Right to a hearing
- Appeals provision

School Phones – Cell Phone Policy

1. Phones within the school are for school business. No student will be allowed to use the phone. In the event of an emergency the call will be made by the school secretary, nurse, teacher, or Principal.
2. Cell phones **ARE** permitted in the school with the following guidelines; students are to turn cell phones off when arriving to school. Teachers will collect phones each morning. They will be stored safely. Teachers will return student cell phones at the end of the day before going home. Students may not use cell phones anywhere in the school building including but not limited to hallways, cultural center, lockers, and/or bathrooms. Cell phones will be taken away from students who do not follow correct procedure. Cell phones will then be sent to the school office. Parent/guardians will need to pick up the cell phone. Cell phones will be returned only to the student's parent/guardian. They will not be returned to the student.
3. **No** electronic games or devices are allowed in school. They will be confiscated and parents will need to come in to get the device back.

Retention

1. The recommendation to retain a student will be made by the Principal, teacher, and parents after a discussion of the student's progress during the year.
2. The parents will be required to sign a form stating their intention to retain or promote the student.

Field Trips: Off-Site Activities Policy

Field trips are intended to allow students experiences that provide them with insight, information, or knowledge that cannot be adequately developed through regular classroom instruction. Field trips therefore, become an integral part of the curriculum and are as essential to the instructional process as textbooks, equipment, and other instructional devices and teaching/learning strategies. They allow students to learn what might not be learned within the classroom. As it is widely acknowledged that not all children learn in the same way, field trips allow students an opportunity to expand their intelligence in ways different from those typically available inside the classroom.

While most field trips are directly related to specific, academic curricula, they also may address the need for intra and inter personal growth in children, and thus may be designed to promote social and emotional development and to provide for the development of the "whole" child. Participation in field trips and excursions is a privilege.

Off-site activities are those activities arranged by or under the auspices of the school that take place outside the boundaries of the school. Off-site activities can complement and enhance the curriculum of the school by providing experiences that would be impossible within the school boundaries.

Where the staff is proposing to arrange an off-site activity the approval of the Principal must be obtained before any commitment is made on behalf of the school. Sufficiently detailed proposals should be provided by the member of staff to allow for an informed decision to be made.

Where the activity involves a period of more than 24 hours, an overnight stay, or a journey by sea or air, an approval will be needed by the Principal and those in direct authority. Wherever possible the staff planning an off-site activity should make a preliminary visit to the venue in order to familiarize themselves and make a proper assessment of its suitability, bearing in mind the age of the children, the size of the group, the time of year (and probable weather conditions) and the suitability of the facilities. The costs of such a visit may be reclaimed and should be included in the overall cost of the activity.

The cost of off-site activities should include any costs associated with the visit which would normally fall on the school e.g. transport, entrance fees, insurance, provision of any resources or equipment specific to the activity. This should include the costs related to adult helpers. The Principal will appoint a party leader to be responsible for running the activity. This will normally be a teacher employed at the school.

An activity should normally have sufficient adults taking part to provide a minimum ratio of one adult to ten children with a minimum of two adults. This is a minimum requirement and should not automatically be taken as providing appropriate supervision. Preschool through first grade may require additional supervision at the Principals discretion. **Teachers are the only ones responsible for making decisions or imposing discipline.**

Transportation arrangements should provide a seat for each member of the party. It is the policy of the school to use coaches with seat/lap belts where available. Private cars are not utilized to transport children to and from an off-site activity.

The parents of children taking part in an off-site activity should be provided with appropriate information about the activity. **No child is allowed to attend these field trips without written permission. No permission over the telephone will be accepted.**

Funding for off-site activities is provided mainly by parental contributions with a limited subsidy from the academy's PTA as approved. No child may be excluded from an activity because of the unwillingness or inability of the parent to make a contribution.

The timetable for the payment of contributions should allow for the Principal or designee to make a decision about the financial viability of the activity in reasonable time.

All adults accompanying a party must be made aware, by the party leader, of the emergency procedures that will apply. Each adult should be provided with an emergency telephone number. This will normally be the school number, but where an activity extends beyond the normal school day the home telephone number of a designated emergency contact should be provided.

Before a party leaves school the school office should be provided with a list of everyone, children and adults, traveling with the party, together with a program/timetable for the activity.

The safety of the party and especially the children is of paramount importance. During the activity the party leader must take whatever steps are necessary to ensure that safety.

Prior to an activity, if it is felt that the behavior of an individual child is likely to compromise the safety of others or the good name of the school, the party leader should discuss with the Principal the possibility of excluding the child from the activity. Any child who misbehaves during a field trip may be excluded from future trips. This decision would be made by the Principal from the information provided by the supervising teachers.

Any parent wishing to volunteer for a school field trip must have a completed CORI check on file at least one month prior and must contact the classroom teacher. It is ultimately the classroom teacher's decision on who will chaperone the field trips.

Field Trip Policy

Planning

The Principal is responsible for seeing that a teacher or group of individuals proposing a field trip, plan, implement, and assess the field trip with the following educational issues in mind:

1. relevance of proposed field trip to unit of study/curriculum; in addition, where appropriate, effort should be made to integrate the knowledge to be acquired during the field trip experience with classroom activities and other related curricula;
2. age appropriateness;
3. minimum disruption of attendance in other classes;
4. consideration of the frequency/number of field trips taken by any particular group of students during the course of the school year;
5. accessibility to all students;
6. impact of the trip upon available school budget resources;
7. evidence of thoroughness in planning and preparation of students;
8. plans for preparing and informing parents of particular goals and objectives, as well as logistics of the trip (Field Trip Information Sheet for parents);
9. oral and/or written opportunities for reflection and assessment of the trip's educational value by students, teachers, chaperones, and parents upon completion of the trip.

The principal or his/her designee must also address practical issues. These matters include:

1. Authorization

Day field trips may be authorized by the principal provided that the following criteria are met:

- One way distance from the school does not exceed 100 miles;
- No overnight travel is involved.

Field trips of a distance greater than 100 miles or involving overnight arrangements must be approved by the Principal and higher authority prior to the distribution of any informational materials on the trip to students and parents.

Upon approval of the school trip by the appropriate authority, the relevant consent and release forms should be sent home with participating students for signature by the students' parent(s). NO student may be permitted on a school trip without a signed consent and release form (permission slip)

2. Travel Plans

Students shall be transported by chartered conveyance traveling to and from a destination for all field trips or school events.

Exceptions are:

- The field trip is within the boundaries of the school and students can either walk to their destination (such as the Historic Mills) or the principal determines one of the alternative transportation acceptable.

3. Liability Insurance

The teacher/administrator of the field trip or activity must request that written proof of adequate liability insurance is in effect for the carrier/transportation company.

4. Medical Care

Preparations for emergencies and the care of children with chronic medical problems need to be made. To ensure accurate, up-to-date health information, permission slips for field trips must require parents to indicate if their child has any medical issues to be considered or medication to be taken and to list the steps that should be followed in case of an emergency. Planners of the trip must be sure that parents understand what forms they are required to provide, signed by doctors and/or parents that will accompany any medication. Health forms need to be submitted to the school nurse two weeks prior to an overnight trip. For day and night trips there must be an organized way to ensure that all students actually take their required medicines.

5. Medical Insurance

On the Field Trip Permission Form, parents need to indicate the name of the student's medical insurance carrier and policy number.

6. Costs

Day – Field trips may be funded through a variety of sources: school budget, grants and contributions from outside the school budget, parent teacher organization support, and parent contributions. Gift shop or souvenir purchases should be discouraged. Schools should be sensitive to the cumulative amount of money spent by any one family within a given year. If this emerges as a concern, it is incumbent upon the school principal to enter into dialogue to arrive at an appropriate resolution.

Overnight – These trips may be funded through a variety of sources. Parent contributions for overnight trips will be determined by the principal. Trip organizers will suggest amounts students need for food and miscellaneous items.

7. Supervision

Number of Chaperones:

An activity should normally have sufficient adults taking part to provide a minimum ratio of one adult to ten children with a minimum of two adults. This is a minimum requirement and should not automatically be taken as providing appropriate supervision. Preschool thru first grade may require additional supervision at the Principal's discretion.

All adults accompanying a party must be made aware by the party leader, of the emergency procedures that will apply. Each adult should be provided with an emergency telephone number. This will normally be the school number, but where an activity extends beyond the normal school day the home telephone number of a designated emergency contact should be provided.

Any parent wishing to volunteer for a school field trip must have a clean CORI check completed prior to the trip.

8. Accommodations for Overnight Trips

Careful attention needs to be given to the location, safety, and security of the facility selected. In these precarious times, some locations may be deemed unsafe and will not be acceptable as field trip designations.

9. In-School Provisions

Appropriate educational accommodations will be made for those students who are not participating in field trips.

Fire Drills

Several times each school year, practice fire drills are conducted. These are held to familiarize students with the locations of the nearest exits and the procedure for evacuating the building, should there ever be an emergency. Students will proceed quietly and quickly without rushing, pushing, or lagging behind. The fire drill exit routes are clearly marked in each area of the building. Additional crisis drills are conducted periodically during the school year.

Grading Policy

This policy gives guidance to staff on the purpose, types, and frequency of grading.

HOMEWORK POLICY

Homework is assigned on a regular basis at the Hellenic American Academy. The primary objective of homework assignments is to help students develop independent work-study habits.

The Academy administration and school staff see homework as serving the following purposes:

1. To encourage self-discipline and personal organizations.
2. To reinforce skills learned at school.
3. To bridge the gap between home and school.
4. To allow parents direct involvement in their child's learning.
5. To encourage creative and analytical thinking/reasoning skills.
6. To teach students accountability and responsibility.

The frequency and length of tasks will vary according to the age, needs, and grade of the child.

The total amount of time for all subjects combined per night is as follows:

Grade K	varies with skills learned
Grade 1	20-30 minutes
Grade 2 & 3	30-45 minutes
Grades 4-6	45-90 minutes
Grades 7-8	90-120 minutes

- Tasks set will vary in their nature and will not necessarily be of a formal pencil and paper style.
- Tasks may include amongst others e.g. reading, learning of tables, spelling or other materials, completion and/or extension of work begun in class, additional research, collecting information, and investigations.
- Particular circumstances (e.g. prolonged absence from school) may warrant additional homework. This should be discussed with the classroom teacher and s/he will set the criteria.
- Teachers will provide make up work for vacations other than those designated by the school calendar.
- Homework should be set for clearly defined purposes, not for its own sake.
- **All homework assignments are mandatory.**
- Homework will be collected and reviewed and returned.
- Grade level teachers will discuss specific homework policies with parents at Open House.
- No homework will be assigned during school vacations or religious holidays.
- Homework, long term assignments and projects will not be posted on the current school website.

If your child is visibly and consistently confused and/or upset, please use this as an opportunity to contact his/her teacher as soon as possible. Do not wait until the end of a quarter; contact his/her teacher immediately. This can be simply done by a note to the teacher. All children should experience success in their homework.

All parents/guardians have a responsibility to check their child's homework assignments and to see that everything has been completed.

Parent Orientation

In the fall parents will be invited to a classroom Open House. The purpose of this is to have teachers meet with parents to share curriculum information and discuss their particular classroom goals and visions for the school year.

All program and curricula are carefully researched and agreed upon by the Academy Administration, Principal, and teachers. The advice of field experts is part of the process of choosing the curricula. The Hellenic American Academy prides itself on following state mandated guidelines and offices of education throughout the United States in making their final choices for programs and subjects within the curriculum.

Policy on entrance age:

1. Children who will be five years of age by August 31st of the year during which they wish to enroll will be eligible to enter kindergarten at the start of the school year in late August or September. Readiness of the child could be a determining factor.
2. Initial admission of children by grade will involve a consideration of both chronological age and the readiness of children to do the work.

Policy for Photographing Students**School Responsibility**

Occasionally, we may take photographs of the children at our school. We may use these images in our school prospectus or in other printed publications that we produce, as well as on our website or on project display boards at our school. We may also make video or webcam recordings for conferences, monitoring or other educational use.

Our school may be visited by the media who will take photographs or film footage of a visiting dignitary or other high profile event. Pupils will often appear in these images, which may appear in local or national newspapers.

To comply with the Data Protection Act of 1998, we need your permission before we can photograph or make any recordings of your child for promotional purposes.

Parent Responsibility

Parents take pictures and video of students all the time – for yearbooks, athletic events, cultural events, in class, at artistic performances, etc. Often we want to post those pictures to the internet (Facebook, You Tube, etc.), thus making those photos potentially available to a global audience. Obviously, the issues surrounding photographs of students on the Web are numerous and complex. The challenge for us is to balance the desires to publicize the great things that are happening at our school with the responsibilities to protect children and satisfy parental concerns about student privacy and safety.

We request that parents exhibit sensitivity towards the privacy and safety of our children particularly since most of the subjects of the photos and videos are minors.

We DO NOT discourage picture taking or video at any of our events. However, to respect the rights of families, parents must get permission from each parent/guardian to use photographs or video that includes children other than their own.

Pupil Education Records**Disclosure of Records**

The school shall keep and update curricular records on pupils, covering their academic achievements, other skills and abilities and progress in school. Other material, although not mandatory may also be recorded. The curricular record, together with this additional material will comprise a pupil's educational record. Confidential reports (e.g. from Social Services, Psychological Reports etc.) must be kept separately from the above general information. The school shall provide an opportunity for the correction of inaccurate educational and personal records.

Pupil Admission Documents

The school shall keep required admission records. These shall be kept up-to-date and amended as and when pupils join or leave the school, providing that the keeping of such information does not violate any law or statute in operation at the time.

Personnel Records

The school shall maintain records of personnel relating to their qualifications, experience, length of service, salary levels. A copy of appraisal statements will be kept securely in the office.

Retention

Students who do not fulfill the academic requirements of a given grade level will be retained. Future enrollment will be determined by the principal. Any parent who does not agree with the retention must sign a release of responsibility form. A student may also be retained if there is a high rate of absenteeism which may affect academic learning .

Financial Records

Records of the school's financial controls and budget shall be kept in accordance with the current Church Parish Council and shall be made available for inspection by the proper authorities under those statutes and regulations.

Pupil records

- Entry forms (Registration, Health, and Prior Academic Records) are completed by parent before placement to the school is offered.
- Progress Reports and Report Cards will be issued in grades 1-8 three times a year. Pre K and K students will be given periodic evaluations to be kept in the child's cumulative folder. Individual children's records are confidential and access is only available to parents who make a request to the Principal.
- All Academic Records are kept in the Principal's Office.
- Summative record cards are used for recording attainment at the end of the year. They are kept in the pupil's files that are located in the Principal's Office.
- Standardized test results are kept in the child's cumulative folder.
- Medical records are confidential and kept in the Nurse's office.
- Class teacher records are confidential to the class teacher and only used to guide planning. They inform the teacher about the appropriateness of the work presented to the whole class, group, or individual.

Transfer of records

Records are only forwarded to the new school following a request in writing to the Principal of the school and as long as tuition has been paid in full prior to release of these records. It is insufficient for a parent to advise us of the new school.

Records to be forwarded are:

- Copies of report cards
- Copy of cumulative folder
- any special needs information

Curriculum Policy Documents

The Hellenic American Academy curriculum is in alignment with Massachusetts State Frameworks and Common Core Standards.

Record Keeping

The school shall keep the following records:

- Pupil Education Records
- Pupil Admission Documents & Personal Information
- Emergency/Health Records
- Personnel Records
- Financial Records

Safety of Students/Staff

Safety of students and school personnel are a top priority at the Hellenic American Academy. To ensure the safety of our students and school personnel, the following measures are in place at HAA:

- All doors are locked and the back gate is closed. Entry must be made through the front door by ringing the bell.
- All parents and other visitors must check in at the main office. No one is allowed to roam the school during school hours.
- No student is dismissed to any person other than his/her parent or guardian without special parental permission. A custody file is kept on children so identified.
- During arrival/dismissal times and recess periods, students are monitored carefully by the staff.

School Advisory Council

The function of the SAC is to support the administration in matters relating to the values, mission, and vision of the HAA.

School Attendance

Regular school attendance is a very important aspect of a child's education.

1. It is important that parents make every effort to ensure that their children are in school every day and that they are punctual.
2. If your child is absent, please call the school office in the morning between 7:30 am – 8:00 am at (978) 453-5422. If the school does not receive a phone call the student is marked truant.
3. State law requires that a written note of explanation for the absence be submitted to the homeroom teacher on the date the student returns to school. If a student is absent due to illness for 3 or more days or has a medical emergency, a physician's note should be provided. Upon return to school, the student must present a note to the homeroom teacher. Make-up work for all absenteeism due to illness is expected.
4. Whenever possible appointments with doctors, dentists, etc. are to be made outside school hours. If the appointment must be scheduled during the school day, the student should be in school before or after the appointment whenever possible.
5. Chapter 76 Section 1 of the Massachusetts State Law states that a student should not be absent for more than 7 days in a six-month period. A total of 10 absences are then allowed for the school year. Absences include personal emergencies, sick days, doctors' appointments, and unexcused absences. After 3 days of a consecutive absence, a doctor's note is required.

School Cancellations

Hellenic American Academy makes the judgment on school cancellations. Announcements will be made on Boston's channels 5 & 7. Telephone call will be made.

School Visitations

Parents and all visitors must enter the school by the front door on Broadway St. All visitors must sign in at the office and receive a Visitor's pass. When leaving, the pass must be returned to the school office. Parents may not go to a classroom without permission.

Sexual Harassment Policy

It is the policy of the Hellenic American Academy to maintain a respectful public service environment. All employees regardless of race, color, creed, national origin, age, sex, or handicap, or sexual orientation have the right to an environment free from all forms of discrimination and harassing conduct. The Hellenic American Academy will not tolerate and prohibits sexual harassment and/or offensive behavior by or towards any employee/student.

Please note that while this policy sets forth our goals of promoting a workplace that is free of sexual harassment, this policy is neither designed nor intended to limit our authority to discipline or take remedial action for workplace conduct which we deem unacceptable, regardless of whether that conduct satisfies the definition of sexual harassment.

Definition of Sexual Harassment

Sexual harassment, which is illegal, can consist of a wide range of unwanted and unwelcome sexually directed behavior, and is defined as:

Unwelcome sexual advances, request for sexual favors and other verbal or physical conduct of a sexual nature when:

1. submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment or
2. submission to or rejection of such conduct by an individual is used to impact employment decisions or
3. Such conduct has the purpose or effect of unreasonable interfering with an individual's work performance or creating an intimidating, hostile, or offensive working environment.

These definitions are intended to broadly interpret and include any sexually oriented conduct, whether it is intended or not, that is unwelcome and has the effect of creating a work place environment that is hostile, intimidating, or humiliating to male or female workers.

Certain behaviors are not consistent with the principles and values of the Hellenic American Academy and are prohibited by this policy such as but not limited to: unwelcome sexual remarks or compliments, inquiries into one's sex life; sexual jokes or horseplay, offensive flirtations, advances or propositions, the display of sexual suggestive objects, pictures or written materials, lewd nicknames, sexually suggestive facial expressions and sexual conduct. These are examples of conduct that may, depending on the circumstances, constitute sexual harassment.

Each employee is expected to conduct himself/herself in a respectful manner. Each employee is expected to cooperate in an investigation of a complaint of harassment or sexual harassment by providing any information he/she may have concerning the matter.

All employees should take special note that retaliation against an individual who has complained about sexual harassment and retaliation against individuals for cooperating with an investigation of a sexual harassment complaint is unlawful and will not be tolerated by the Hellenic American Academy.

The administration will enforce the above policy. If the administrator deems a staff member has violated the policies, termination may result.

Smoking and Use of Tobacco Products

Hellenic American Academy recognizes its responsibility to provide a healthful school environment and to protect and promote the good health, safety and well-being of students, staff, and school visitors. To this end, smoking and the use of any tobacco products within the school buildings, in school facilities, or on school grounds by an individual is prohibited.

Special Educational Needs Policy

When teacher/principal/parent sees the need of special education instruction, the student may be referred for an evaluation through the Special Education Departmental Services of the town which they live in. If a child requires special education it will be reviewed on an individual basis. If the results of the evaluation require treatment beyond the scope of the Hellenic American Academy we will refer the parents back to their home based School Department.

Role of the Classroom Teacher

The classroom teacher will:

- Identify each child's needs and skill levels
- Read the child's file where appropriate
- Advise the parents of any concerns
- Provide reports for external agencies
- Monitor and assess progress and maintain appropriate records
- Fulfill all other duties required of the class teacher by the Code of Practice
- Ensure that delivery of the curriculum allows each child to experience success
- Provide examples of teacher concerns

Sports

The Hellenic American Academy is a member of the Ecumenical Sports League.

Tardiness

1. Students must be present in the cultural center at 7:50am for Morning Prayer. If they enter the cultural center/school afterwards, they are considered tardy. They must report to the office for a tardy slip before they will be allowed into class.
2. Students are allowed 2 tardy slips in a marking period. After the second tardy slip a written warning will be given to the student and a letter sent to the parent/guardian. After receiving the 3rd tardy slip the student will be given detention. Parents will be notified of the detention date at least one day in advance. Detention for tardiness is 30 minutes.
3. Excessive tardiness will be reported to the Principal and proper authorities as required by law.
4. Students who enter school after 11:00 a.m. will be marked absent.
5. If a student is dismissed before 1:00 p.m. it will be marked as a dismissal.

Threats

Any threat made by a student or parent toward the school, a staff member, and/or fellow students will be reported to the proper authorities for further investigation.

Use of Electronic Equipment (Personal)

Unauthorized use of electronic equipment such as radios, iPods, CD players, cameras, cell phones and other handheld electronic devices is strictly prohibited. Unauthorized use of these devices interrupts the educational process. Devices used in an unauthorized manner shall be removed from the student and retrieved by the parent or guardian.

Instructors on a case-by-case basis may authorize student use of electronic equipment for medical, educational, or curriculum related purposes. Students shall have written authorization from their instructor when electronic equipment is utilized outside the standard instructional area.

The Internet

The Internet is a vast, global network, linking computers at universities, schools, laboratories, and other sites. Through the Internet, one can communicate with people all over the world through discussion forums and electronic mail. In addition, many educationally

valuable files may be downloaded from the Internet. Because of its enormous size and resources, the Internet's educational potential is boundless. Because of its broad reach, however, the Internet also contains the potential for abuse. These guidelines are intended to help ensure that students use this valuable resource in a safe and appropriate manner.

Guidelines for Student Internet Use

The Hellenic American Academy offers Internet access to our students. The sole purpose of this Internet access is to support education and research by providing students and teachers with access to unique resources and an opportunity for collaborative work. All uses of the Hellenic American Academy Internet access must be in support of and consistent with these educational objectives. All students who use the Internet access are expected to read these guidelines and/or to take part in a discussion of the guidelines with a teacher. Adherence to the guidelines is a condition for a student's privilege of Internet access.

Electronic media includes all forms of social media, such as text messaging, instant messaging, electronic mail (e-mail), Web logs (blogs), electronic forums (chat rooms), video-sharing Web sites (e.g., YouTube), editorial comments posted on the Internet, and social network sites (e.g. Facebook, MySpace, Twitter, LinkedIn). Electronic media also includes all forms of telecommunication such as landlines, cell phones, and web based applications.

Students' Individual Responsibilities

1. Students will use the Internet and/or any other electronic devices only with permission from the teacher.
2. When students are using the Internet, they cannot give out any personal information, such as names, addresses, telephone numbers, etc.
3. Students will notify a teacher immediately if they see any information that makes them feel uncomfortable.
